

NEBRASKA INSTRUCTIONAL MATERIALS COLLABORATIVE

Because materials matter for all Nebraska students.

Nebraska Leading the Way

Nebraska is one of only eight states that have been selected to join the CCSSO Instructional Materials and Professional Development Network, leading the nation in increasing the capacity of districts to provide teachers with high-quality, standards-aligned instructional materials.

Our Commitments

Districts and Schools

The NIMC commits to increasing the use of instructional materials in Nebraska that are aligned to the state standards and of high-quality in all classrooms, as measured by reliable data collection.

Professional Development for Educators

The NIMC commits to increasing the percentage of teachers receiving professional development to improve their knowledge and ability to use standards-aligned instructional materials, as measured by reliable data collection.

Teacher Preparation

The NIMC commits to supporting teacher preparation programs with the integration of state standards and aligned instructional materials into their teacher preparation programs.
