

STUDENT ACHIEVEMENT PARTNERS

Looking for ways to enhance your literacy curriculum and to support student learning of college and career readiness standards?

Nebraska Materials Adaptation Project Training

November 7 & 8

9:00 a.m. – 3:00 p.m.

Cost \$30/person; Breakfast, lunch & snacks provided

Location:

Northeast Community College
Lifelong Learning Center
801 E Benjamin Ave.
Norfolk, NE

What is the Nebraska Materials Adaptation Project?

High-quality instructional materials are an essential ingredient to a system that supports student learning—put simply, materials matter! The goal of the Nebraska Materials Adaptation Project, facilitated by the Nebraska Department of Education in collaboration with Student Achievement Partners, is to offer guidance on how to best use or adapt essential features of *Wonders* in order to more closely align the materials to the expectations of rigorous college- and career-ready standards.

The Nebraska Materials Adaptation Project for *Wonders* will help you and your teachers know how to focus on what matters most for developing proficient and confident readers, writers, listeners, and speakers while working towards college- and career-readiness. *Note: Those who do not use Wonders are welcome to join the training and will receive transferable learning about high-quality instructional materials and a potential model of adapting your own materials for better alignment.*

Who should attend?

District/School Curriculum Leaders & Supervisors, Instructional Coaches, ESU Staff Developers, Lead Teachers, etc. *Attending in teams is highly encouraged for site-specific planning time!*

What will the training involve?

- Day One: A workshop-style, one-day training with breakout sessions in the afternoon
- Day Two: Time for reflection and supported action planning in district, school, or service unit teams

Sign up (and invite others on your team!):
